Innovation process

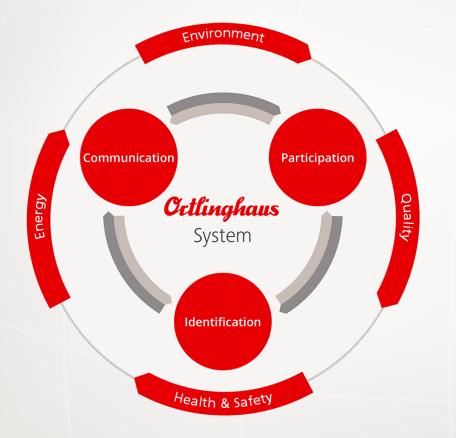

We have been operating successfully for more than 100 years – and we are proud of this achievement. Experience, structure, processes, and systems are key words in explaining what makes us and our products stand out. We like to call it the Ortlinghaus factor.

Systematic development processes are crucial for Ortlinghaus. We constantly analyze our markets, the trends in key areas of technology, and our customers' needs and requirements. The results shape and optimize our new product developments and versions of existing models.

The Ortlinghaus System

Our corporate culture: Our integrated manage-ment system that takes into account all processes is the basis for Ortlinghaus' corporate policy. Quality, occupational health and safety, and environmental protection play crucial roles for our company.

We are convinced that long-term success can be achieved only through the right balance of economic, ecological and social conduct.
